SUBJECT:

DOCKET NO. 2021-1-E - Annual Review of Base Rates for Fuel Costs of Duke Energy Progress, LLC (For Potential Increase or Decrease in Fuel Adjustment or Gas Adjustment) - Staff Presents for Commission Consideration Duke Energy Progress, LLC's Annual Review of Base Rates for Fuel Costs.

COMMISSION ACTION:

I move that we adopt the Stipulation between the parties. The net effect of my motion is a decrease of \$0.97 or 0.9% per month based on a 1,000 kWh monthly usage for a residential customer.

I further move that we adopt the amounts stipulated between the parties consisting of: a totally combined fuel factor of 2.36 cents per kWh for residential, 2.473 cents per kWh for non-demand general service, 1.874 cents per kWh for demand general service, and 1.874 cents per kWh for lighting.

Based upon the analysis presented by the Company and confirmed by ORS, the average decrease anticipated in the average monthly bill of Lighting customers is 0.1%, and the average increase in the average monthly bill of General Service Non-demand and General Service Demand customers is 1.5%, and 1.0%, respectively.

Additionally, I move that we adopt the NEM Distributed Energy Resource values and DERP charges stipulated between the parties as follows:

- a DERP Charge at \$1.00/per month for the Residential class,
- a DERP Charge of \$3.53/per month for the Commercial class, and
- a DERP Charge of \$100.00/per month for the Industrial class, including the Gross

Receipts Tax and regulatory fee

With regard to plant outages, including situations where final reports or investigations (Company, contractor, government reports or otherwise) were not available at the time of the hearing on this matter, the reasonableness of such outages shall be subject to review in the period where such reports(s) become available and provided to ORS and to the Commission.
